STATEMENT OF DAN C. HU

Dear Sir:

I am a registered patent attorney.

1. As established by the attached Declaration of Michael J. Kraft, a Patent Paralegal at the Hewlett-Packard Corporate Legal Department, the Office Action dated April 17, 2007 was not received at the correspondence address to which PTO correspondence was to be mailed in this case.

2. As established by the attached Declaration of Michael J. Kraft, a search of Hewlett-Packard's records, including a mail log (Appendix A to Declaration of Michael J. Kraft), and file wrapper docket report (Appendix B to Declaration of Michael J. Kraft), indicates that the Office Action dated April 17, 2007 was not received.

3. According to the Declaration of Michael J. Kraft, the mail log in Appendix A lists received U.S. PTO correspondence with a mailing date of April 17, 2007. If the Office Action dated April 17, 2007 for this case was received, then that Office Action would have been listed on the mail log. However, according to the Declaration of Michael J. Kraft, the Office Action dated April 17, 2007 was not listed on the mail log of Appendix A, which indicates non-receipt of the Office Action. Also, according to the Declaration of Michael J. Kraft, an image file

I hereby certify that this correspondence is being electronically transmitted to the U.S. Patent Office on the date indicated above.	
	
Ginger Yount	

wrapper (Appendix B), which is the individual docket report for this case (U.S. Serial No. 10/676,557), shows that the Office Action dated April 17, 2007 was not received by Hewlett-Packard.

4. Copies of the mail log listing all received PTO correspondence dated April 17, 2007 (Appendix A) and an image wrapper docket report for this case (Appendix B) are attached to the Declaration of Michael J. Kraft. If received, the Office Action dated April 17, 2007 would have been entered in the mail log and image wrapper docket report, as stated by the Declaration of Michael J. Kraft.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
